Parent Checklist ~ Enrollment Forms:

Please print, review and fill out the following forms, and return no later than

□ Enrollment Application - fill out if you have not previously submitted
 □ Consent Forms
 □ Birthday Story - to be completed by your child's birthday
 □ Physical - to be completed by your child's physician
 □ DCFS Licensing Standards - A separate link is provided for the DCFS Licensing Standards. Please read and keep for your records and then sign the form at the end of this document.
 □ Copy of child's Birth Certificate - bring this in for your child's file

☐ Parent Packet- A separate link is provided for the Parent Packet. Please review and keep for your records as it contains general information and policies about the Montessori Children's Centre.

Permission to Administer Prescription or Over-the-Counter Medicine

I authorize the Montessori Children's Centre to administer prescribed or over-the-counter

medicine to my child, as per specified written instructions, from the parents/guardians. To least disrupt your child's day, MCC gives medicine after lunch and before siesta begins. Date: _____ Signature: **Release of Information Permission** I authorize the Montessori Children's Centre to release information about my child upon receiving notification regarding such an authorized request (typically from your child's next school). Date: Signature: Field Trip Permission MCC may take nature walks and field trips periodically. MCC will provide responsible adult supervision for these excursions. Your signature will give your permission for your child to participate. Date: Signature: **Sunscreen Permission** Your signature will give your permission for teachers to apply sunscreen, as provided by parents/guardians, on your child when appropriate. Date: _____ Signature: _____ **Student Picture Usage Policy** Yes No I GIVE MY PERMISSION for MCC to use my child's image or voice in photographs, recordings, or video for internal purposes. MCC may use these for the enhancement or development of their teaching methods. MCC will not use information, such as first or last names, in any presentation. MCC will restrict these pictures for use at Montessori Children's Centre and will **not** be available to others who are not directly affiliated with our school. Yes No ☐ I GIVE MY PERMISSION to allow organizations in the media (newspapers, television, radio) when covering stories about Montessori Children's Centre, to take pictures, videos, or recordings of my child without compensation. Yes No I GIVE MY PERMISSION to use **pictures** of my child (no first or last name mentioned) on the MCC Facebook/Instagram page, MCC website, or MCC publications, without compensation.

Family Vacations/Days Missed Tuition Payment Policy

When you accept a position at the Montessori Children's Centre, a Parent Information Packet is given to your family. This packet of information outlines and explains our policies and procedures. Signature of this form acknowledges that you have read and understood the information within the Montessori Children's Centre Parent Information Packet. The following sentences are from the Parent Information Packet:

"Annual tuition may be paid weekly, bi-weekly, monthly, or by the semester...Because the programs at the Montessori Children's Centre are year-round, tuition is not credited for days missed by your child".

With this policy stated, if you choose to take a vacation, it is your responsibility to continue full tuition payments to Montessori. Whether the vacation is a few days or a few weeks, our policy remains. If an extended vacation is to be taken, resulting in 4 weeks or more of absences, we ask that you pay ½ of the tuition (for the missed weeks) prior to leaving. The remaining balance (the second ½) is due upon your return.

We thank you for understanding and complying with our policies and procedures. If you have any questions, please do not hesitate to contact Rachel Broach (309-530-6777), Executive Director or Stacy Hanks, Director.

Guidance and Discipline Policy

MCC will administer all discipline in a loving, consistent, fair, and positive manner. Parents will be notified of serious discipline problems immediately. However, even minor problems can be solved through communication and consistency between school and home. This communication serves as a valuable tool to enable both teachers and parents to have similar expectations in the guidance and discipline of their child.

The Montessori Children's Centre uses a discipline program called "Conscious Discipline" developed by Dr. Becky Bailey. No use of physical punishment is ever used. This loving discipline compliments our Montessori philosophy by allowing children to acknowledge their emotions by giving them helpful tools to handle their feelings in an appropriate manner. It is a comprehensive social and emotional intelligence classroom management program that empowers both students and teachers. We also give our parents monthly information to allow them to learn the same methods and techniques we use at school. We feel that it is important for both parents and teachers to work together, providing consistency as a team, to help the children. We hope this will be a positive tool to benefit children both at school and at home.

In the case of extreme disciplinary problems, MCC will make every attempt to work together with parents to establish specific ground rules and expectations for the future. However, if these attempts fail to meet the child's individual needs both staff and parents should reevaluate the benefits of the child staying in such a program. Any child whose presence is detrimental to the group as a whole shall be dismissed from the Montessori Children's Centre.

I/We read, understand, and MCC's policy on guidance and discipline:

Personalized Birthday Story

On each child's birthday, we have a special ceremony to celebrate his or her life. We place a sun in the center of the red line, and the birthday child holds the earth in his or her hands and walks around the sun as many times as the earth has revolved around the sun in his or her lifetime. For example, if Jon is turning five, he revolves around the sun five times. As the child is walking, the teacher is telling the class about what he or she was doing each year of his life. The children have had lessons on this and know the earth rotates on its axis every day and the earth revolves around the sun one time each year.

We like to have input from the parents on the highlights of your child's life. Some ideas of things to list are: learning to walk, learning to ride a bike, going on a special vacation, starting school at Montessori, and any other special milestones in your child's life. If bringing a snack to celebrate your child's birthday, please remember our DCFS-mandated policy of no home-baked food and peanut products. Thank you!
